including catering, funicular ride and dinner > 90,00 €

Partner faculties with poster presentation > free  
(One person per faculty)

## Conference Information

The congress hall „Molkenkur Hotel“ with its wonderful view over the Neckar and the Rhine Valleys is located above the historical city centre of Heidelberg, in the heart of the picturesque Odenwald.

## Hotel

We pre-booked several guest rooms at the hotel.  
Please book your room directly at the hotel „Molkenkur“  
using the keyword „Kompetenzbasiertes Prüfen im Verbund“.

## Address

Molkenkur Hotel GmbH  
Klingenteichstr. 31  
69117 Heidelberg

The conference is partly funded by the BMBF cooperation  
project „Kompetenzorientiert Lernen, Lehren und Prüfen in  
der Medizin“, sub-project 4 „Kompetenzbasiertes Prüfen“.

**Medical Assessment Alliance:  
International Conference in  
competency-based Assessment**

03 - 04 July 2012 Heidelberg

## Invitation

### Dear colleagues,

an excellent medical training, including fair and high-quality assessments guarantee quality medical care and reflect the demands on future physicians in both form and content. The National Competency-oriented Catalogue of Learning Objectives defines, for the first time, competencies for doctors and establishes consistent and obligatory learning objectives for medical education in Germany based on international standards.

The Competence Network Teaching in Medicine Baden-Württemberg aims at the systematic implementation of competency-based curricula and assessment. Competency-based assessment is a key aspect of the Competence Center for Assessment's remit, which aims to bring the content and format of assessment in medicine closer to professional practice. The Competence Center for Assessment in Medicine manages the Medical Assessment Alliance of which 28 members from faculties throughout Europe.

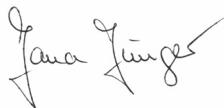

In collaboration with you we would like to work on the development and implementation of competency-based assessments.

The conference „Competency-based Assessment“ of the Competence Center for Assessment in Medicine brings together national and international partners, the Cooperation for Assessment in Medicine and members of the Committee for Assessment of the German Association for Medical Education (GMA) and Medical Faculty Association (MFT), in order to promote professional exchange and to enable a closer cooperation.

It will be our pleasure to welcome you at this event in Heidelberg.

**Prof. Dr. med. Franz Resch**  
Dean of Study

**PD Dr. med. Jana Jünger,**  
MME (Bern)

Head of Competence Center  
for Assessment in Medicine /  
Baden-Württemberg,  
Head of Committee for Assessment  
of the GMA
